### **INTRODUCTION**

In the weeks leading up to the April 2024 primary, the Washington County Board of Elections (the "Board" or "Washington County") segregated voters' mailin ballots that were returned without a signature or a date or were incorrectly dated, knowing these votes would never be counted. The Board then hid that information from the voters and the public, in many cases affirmatively misleading voters into believing that their mail-in ballots would be counted, during a window when there was still time to correct the error by voting a provisional ballot. Ultimately, the Board's actions disenfranchised 259 qualified, eligible Washington County voters in the April 2024 primary, none of whom were notified that their mail-in ballots would not be counted.

Washington County's top election official testified candidly that during the 2023 elections, the Board had provided notice to voters who sent in flawed mail-in ballot packets, simply by selecting the right code from a drop-down menu in the state's electronic voting system, the Statewide Uniform Registry of Electors ("SURE"), thereby triggering an automated email. The reason the elections office did not do so during the 2024 primary is that the composition of the Board changed, following which, by a 2-1 vote, the Board revoked the 2023 policy and ordered the elections staff not to enter the correct codes into SURE or even answer telephone inquiries about the status of mail-in ballots. In light of these uncontested

facts, the lower court concluded that "the burden on the government is low" through the SURE system and that the "great staff in the elections office have proven to be more than capable of contacting electors based on the Board's 2023 policy." Memorandum Opinion and Order ("Op.") 21 (Dkt. No. 25).

Based on those facts—which are uncontested on appeal—the court below held that the Board had violated the due process rights of mail-in voters and enjoined the Board from employing its policy for the 2024 general election.

Appellants bear the burden on appeal of establishing that the lower court abused its discretion in issuing injunctive relief, and they have failed to discharge that burden.

The right to relief is clear. The relevant test is the three-part balancing test from the seminal decision in *Mathews v. Eldridge*.<sup>1</sup> Under *Mathews*, courts balance three factors: 1) the private interest affected; 2) the risk of an erroneous deprivation and the value of additional or substitute safeguards; and 3) the state's interest, including the burdens the additional or substitute procedural requirements would impose on the state. *Washington*, 306 A.3d at 300. That test is easily met here. Voting is a fundamental right, the risk of deprivation is certain if Washington County enters inaccurate codes into SURE, and the burden on the County in entering the right codes is nil.

<sup>&</sup>lt;sup>1</sup> Mathews v. Eldridge, 424 U.S. 319 (1976). See Washington v. Pa. Dep't of Corrections, 306 A.3d 263, 284-85 (Pa. 2023); R v. Dep't of Pub. Welfare, 636 A.2d 142, 152-53 (Pa. 1994).

Unable to justify the Board's decision to ignore the rights of its own voters, Appellants try to deflect attention on appeal by challenging the ripeness of this well-developed and robustly litigated case, asserting that the dispute has already been resolved by the Pennsylvania Supreme Court, trying to take refuge in the "legislative act" doctrine, and claiming that there is no protectible interest in voting.

Appellants' grab bag of appellate issues is empty.

First, there is a live and critically important issue here that will impact the upcoming November election. Washington County will begin mailing ballots shortly, and unless enjoined, will follow the current flawed, no-notice policy. The Board's vigorous defense against this lawsuit dramatizes the extant controversy. This is an issue that the appellate courts of Pennsylvania should address quickly.

Second, Appellants incorrectly argue that the Pennsylvania Supreme Court settled the question at issue in *Pa. Democratic Party v. Boockvar*<sup>2</sup> ("*Pa. Dems.*") interpreting that decision as creating an unqualified right of election boards to deny information to their constituents. But that is a twisted reading of *Pa. Dems.*, which held only that the Court had no legislative guideposts from which to create a notice and cure regime. The Court did not consider a constitutional due process challenge

3

<sup>&</sup>lt;sup>2</sup> 238 A.3d 345 (Pa. 2020).

there, much less sanction county boards of elections' misuse of the existing SURE system, which has evolved significantly since 2020.

Finally, Appellants' argument that the lower court is powerless to address the constitutional wrong should be rejected. Certainly, the "legislative act" doctrine provides no justification for allowing the Board to disenfranchise individual voters. Nor did the lower court abuse its discretion in ordering the Board to enter proper codes from the SURE drop-down menu, which is precisely what the Board had been doing prior to 2024 when it put the illegal policy in place. The contention that returning to the 2023 policy constitutes some sort of improper "pre-canvassing" is both waived and in direct conflict with the statutory text of the Election Code. There is no basis for overturning the court's injunction. The judgment of the lower court should be affirmed.

#### COUNTER-STATEMENT OF THE ISSUES PRESENTED FOR REVIEW

1. Did the lower court correctly hold that Appellees' challenge to the Washington County Board of Elections' practice for handling mail-in ballots is ripe for adjudication, where the Board's practice is still in effect for the November 2024 election and the Board is vigorously defending that practice?

Suggested Answer: Yes.

2. Does the Washington County Board of Elections' practice of concealing information from voters about whether their mail-in ballot declaration

envelope contains a disqualifying error violate the Pennsylvania Constitution's Due Process Guarantee?

Suggested Answer: Yes.

3. Did the lower court correctly hold that the Pennsylvania Supreme Court's holding in *Pa. Dems*. does not bar Appellees' claim under the Pennsylvania Constitution's Due Process Guarantee?

Suggested Answer: Yes.

4. Does the Pennsylvania Constitution's Due Process Guarantee require the Washington County Board of Elections to provide voters with pre-deprivation notice that their mail-in ballot will not be counted by inputting accurate mail-in ballot status codes into the SURE system prior to Election Day?

Suggested Answer: Yes.

### COUNTER-STATEMENT OF THE SCOPE AND STANDARD OF REVIEW

Appellees do not contest that the standard of review for the grant or denial of summary judgment is de novo. However, this Court's scope of review from an order granting a permanent injunction is limited. *O.D. Anderson, Inc. v. Cricks*, 815 A.2d 1063, 1070 (Pa. Super. 2003); *RESPA of Pennsylvania, Inc. v. Skillman*, 768 A.2d 335, 339 (Pa. Super. 2001). The Court must accept the lower court's factual findings and accord them the weight of a jury verdict if they are supported by competent evidence. The Court may reverse the conclusions drawn from those

facts or the lower court's legal conclusions based on an abuse of discretion or error of law. *Id*.

#### **COUNTER-STATEMENT OF THE CASE**

Appellants do not contest that the material facts in this case are undisputed.

#### I. Voting by Mail in Pennsylvania

In 2019, Pennsylvania adopted "no excuse" absentee or mail-in voting, allowing registered voters to submit a mail-in ballot without having to justify why they cannot go to the polls on Election Day. Accordingly, since the 2020 primary election, all registered, eligible Pennsylvania voters have had the right to vote by mail-in ballot.<sup>3</sup> Act of Oct. 31, 2019, P.L. 552 No. 77 ("Act 77").

Upon receipt of the mail-in ballot packet, a voter must mark the ballot, place it in a "secrecy" envelope, and then place the secrecy envelope in a pre-addressed outer return envelope, which contains the voter declaration and spaces to sign and handwrite the date (the "declaration envelope"). 25 P.S. §§ 3146.6(a), 3150.16(a). Mail-in ballots are not counted if the voter fails to sign or correctly date the declaration envelope or forgets to include the secrecy envelope. <sup>4</sup> *See Ball v*.

<sup>&</sup>lt;sup>3</sup> Identical procedures govern how voters apply for, complete, and return both absentee and mailin ballots. For ease of reference, the term "mail-in ballots" is used to encompass both absentee and mail-in ballots.

<sup>&</sup>lt;sup>4</sup> On August 30, 2024, this Court found that the handwritten date requirement is unconstitutional when enforced against voters who timely submit their ballots. *Black Political Empowerment Project, et al. v. Schmidt et al.* No. 283 M.D. 2024, 2024 WL 4002321 (Pa. Cmwlth. August 30, 2024). The case is now on appeal before the Pennsylvania Supreme Court.

Chapman, 289 A.3d 1, 28 (Pa. 2023); Pa. Dems., 238 A.3d at 380. In every election since the implementation of Act 77, thousands of voters across the Commonwealth have made disqualifying mistakes when submitting their mail-in ballot that have resulted in their vote not being counted. See July 1, 2024 Verified Complaint ("Compl.") ¶ 32 (Dkt. No. 1)..

#### **II.** The SURE System

In order to facilitate the election process, the Legislature directed the Department of State ("DOS") to implement "a single, uniform integrated computer system," the SURE system. 25 Pa.C.S. § 1222. *See also* Deposition of Deputy Secretary for Elections and Commissions Jonathan Marks ("Marks Tr.") 24:3-12 (Dkt. No. 17, Ex. 1). Counties are required to work in and through the SURE system. *See* 25 Pa.C.S. § 1222(c) ("All [county election] commissions shall be connected electronically to the SURE system and shall maintain their registration records in the system."); *see also id.* § 1222(e) ("[E]ach commission shall be required to use the SURE system as its general register."); Jul. 18, 2024 deposition of Washington County Elections Director Melanie Ostrander ("Ostrander Tr.") 203:24-204:1; 204:6-10.<sup>5</sup> Counties must enter data into the SURE system, including data identifying "registered electors who have been issued absentee

<sup>&</sup>lt;sup>5</sup> A true and correct copy of Melanie Ostrander's deposition transcript is attached hereto as Exhibit 1.

ballots," 25 Pa.C.S. § 1222(c)(19), and data identifying "registered electors who vote in an election and the method by which their ballots were cast." *Id.* § 1222(c)(20). *See also* 4 Pa. Code §183.4(b)(2) ("A commission shall enter. . . voting history for registrants."). As a practical matter and to comply with other Election Code provisions, counties must also promptly and accurately enter this data into SURE in order to generate accurate poll books for Election Day.<sup>6</sup>

According to DOS protocols for processing mail-in ballots, upon receiving a mail-in ballot, counties are required to stamp the receipt date on the outer envelope and record the receipt in the SURE system. Parties' Joint Stipulation of Facts ("Stip. Facts"), Ex. I, Pa. Dep't of State, Guidance Concerning Examination of Absentee and Mail-in Ballot Return Envelopes at 2 (Dkt. No. 11); Marks Tr. 12:20-25; 18:20-19:1; 86:16-18 (Dkt. No. 17, Ex. 1). When a mail-in ballot is scanned into the SURE system, the election worker is presented with a drop-down menu with 23 options for coding the status of the ballot. *See* Stip. Facts, Ex. D, Pa. Dep't of State, SURE Project County Release Notes (Mar. 11, 2024) ("SURE

\_

<sup>&</sup>lt;sup>6</sup> Specifically, county boards of election must promptly and accurately enter this data into SURE to "[p]ermit the timely printing and transmission" of "district registers," more commonly known as poll books, "and all other information contained in the system as may be necessary for the operation of the polling places on election days." 25 Pa.C.S. § 1222(c)(13). Without that up-to-date information, counties could not generate accurate poll books for Election Day that identify voters who requested a mail-in ballot and returned it and those who did not. For example, if the poll book shows that the voter was sent a mail-in ballot but has not returned it, the voter may vote by provisional ballot. *Id.* § 3150.16(b)(2) (mail-in ballots); *id.* § 3146.6(b)(2) (absentee ballots). As a practical matter, however, no voter may be denied the opportunity to submit a provisional ballot.

County Release Notes") (Dkt. No. 11); *see also* Stip. Facts, Ex. I at 3 (Dkt. No. 11); Marks Tr. 31:6-18; 38:11-16 (Dkt. No. 17, Ex. 1). The Board of Elections decides which code to use to indicate the ballot status, which triggers a corresponding automatic email notification to the voter. Stip. Facts ¶ 24 (Dkt. No. 11); Marks Tr. 57:7-12; 69:25-70:6 (Dkt. No. 17, Ex. 1); Ostrander Tr. 34:25-35:12; 38:24-39:8 (Ex. 1).

For example, DOS provides a "RECORD – BALLOT RETURNED" code to record the voter's ballot as timely returned. Stip. Facts, Ex. D at 10 (Dkt. No. 11). When a county board of elections selects this code, it automatically generates an email indicating that the voter's ballot has been received and that if there is a problem, they may hear from the county later:

Your ballot has been received by [County Name] County as of [DateRecorded]. If your county election office identifies an issue with your ballot envelopes that prevents the ballot from being counted, you may receive another notification. Otherwise, you will not receive any further updates on the status of your ballot and you are no longer permitted to vote at your polling place location.

Id.

DOS provides a set of "CANC" codes – short for "CANCELLED" – for ballots with disqualifying errors on the declaration envelope. Stip. Facts, Ex. D at 3 (Dkt. No. 11). The SURE County Release Notes explain that the "cancelled" codes are intended to be used when a voter returns the ballot packet with an error and the

county "has made a final decision as to the ballot, *or it does not offer the opportunity to cure.*" *Id.* at 8-9 (emphasis added). Selecting a particular "CANC" code generates a corresponding email notification to the voter. For example, if the county selects the "CANC – NO DATE" code, the following email is automatically sent to the voter:

Your mail ballot may not be counted because you did not date the declaration on your ballot return envelope. If you do not have time to request a new ballot before [Ballot Application Deadline Date], or if the deadline has passed, you can go to your polling place on election day and cast a provisional ballot.

#### *Id.* at 8.

In addition to triggering an email that notifies voters that their ballot has a disqualifying error, coding a mail-in ballot with a disqualifying error allows each voter to "track" the status of their mail-in ballot at a DOS website. *Id.* at 15. This data is also made publicly available to requestors by statute, enabling political parties and voting rights organizations to reach out to affected voters and notify them of their ballot status. Stip. Facts ¶ 24 (Dkt. No. 11); Marks Tr. 28:19-22 (Dkt. No. 17, Ex. 1). *See* 25 P.S. §§ 3146.9, 3150.17. The codes also impact the way voters' ballot status is listed in the poll books on election day: for example, a voter whose defective mail-in ballot is marked "cancelled" in the SURE system will be listed in the poll books as having been issued a mail ballot, but not having returned it. *See* Ostrander Tr. 44:7-25 (Ex. 1). DOS guidance specifies that "[i]t is important

that the ballot return status is promptly and accurately recorded in SURE using the specific response type as to the disposition for each ballot received." Stip. Facts, Ex. I at 3 (Dkt. No. 11).

#### III. Washington County's Use of the SURE System for Mail-In Ballots

When Washington County receives an application for a mail-in ballot, it verifies the voter's identity and eligibility using the SURE system. Ostrander Tr. 24:24-26:1 (Ex. 1). The County then prints a unique bar code label from the SURE system that is linked with the voter and affixed to the ballot packet. *Id.* 26:2-27:5. The County then sends the ballot packet to the voter, using the SURE system to track the date when the ballot packet was mailed. *Id.* 27:14-28:9.

Once the voter returns the mail-in ballot packet, the election office datestamps the ballot and scans the bar code on the outer declaration envelope into the SURE system to record that the ballot has been received. Stip. Facts ¶ 41 (Dkt. No. 11); Ostrander Tr. 29:5-30:10 (Ex. 1). The office also visually inspects the ballot to determine whether the outer declaration envelope is correctly and completely dated and signed. Ostrander Tr. 41:4-9 (Ex. 1). It is immediately apparent whether the declaration, which is on the same side of the outer envelope as the bar code, is missing a signature, is dated improperly, or is missing a date. *Id.* 38:1-14; 41:10-13; *see also* Marks Tr. 85:24-86:7 (Dkt. No. 17, Ex. 1).

In the lead-up to both the 2023 primary and general elections, the Washington County elections office scanned mail-in ballots with disqualifying errors on the declaration envelopes into the SURE system and on the same day, coded them using one of the "CANC" codes in SURE. Stip. Facts ¶¶ 26-27 (Dkt. No. 11); Ostrander Tr. 32:25-33:7; 34:15-35:12; 40:2-19 (Ex. 1). Based upon the type of "CANC" code that was selected by County staff, voters received an automatic email through the SURE system informing them that their ballot had been cancelled and would not be counted. Ostrander Tr. 38:24-39:17 (Ex. 1). And if there was not an email address on record, County staff placed a phone call to the voter informing them that their declaration envelope had a disqualifying error. Ostrander Tr. 43:7-13 (Ex. 1). Washington County then segregated any ballots with defective declaration envelopes into bins, filed alphabetically by precinct name, and placed in a separate area of the office's secure mail ballot room. *Id*. 41:14-24; 47:4-48:19. In 2023, Washington County also permitted voters to "cure" mail-in ballots that lacked a signature on the declaration envelope by going to the election office to add the signature. Voters who forgot the date or wrote an "incorrect date" could request a replacement mail-in ballot. If voters were unable to cure, they could vote a provisional ballot at their local polling place on Election Day. Stip. Facts ¶ 28 (Dkt. No. 11); id. Ex. K; see also Ostrander Tr. 40:2-19; 42:22-43:13; 49:1-11; 169:15-20 (Ex. 1).

However, in advance of the April 2024 primary, the Board of Elections reversed course, and instead began depriving voters of any notice of disqualifying errors on their mail-in ballot declaration envelopes. Stip. Facts ¶¶ 29-35 (Dkt. No. 11). After a series of meetings, in which the Board was informed that dozens and ultimately hundreds of mail-in ballots had already been segregated, the Board voted 2-1 not to provide voters with notice of and the opportunity to cure mail-in ballots with disqualifying errors on the declaration envelope. *Id.* ¶¶ 33-35. A week before the April 2024 primary election, the election office had already identified and segregated 170 ballots that would not be counted. *Id.* ¶ 39; Ostrander Tr. 86:14-87:4 (Ex. 1).

Throughout the April 2024 election cycle, election office staff scanned and coded mail-in ballots in the SURE system on the day they were returned, and segregated ballots with disqualifying errors on the declaration envelope in bins, alphabetized by precinct, just as they had in 2023. Stip. Facts ¶ 41, 43 (Dkt. No. 11); Ostrander Tr. 74:16-75:8 (Ex. 1); *see also id.* 48:2-19. But instead of coding the segregated ballots as "CANC" as they did in 2023, the office marked every ballot in the SURE system as "Record – Ballot Returned," whether or not the mail-in ballot declaration envelopes had disqualifying errors. Stip. Facts ¶ 42 (Dkt. No. 11); Ostrander Tr. 67:9-23; 71:5-18 (Ex. 1). As a result, voters whose mail-in

ballot declaration envelopes had disqualifying errors, such as Voter-Appellees Mr. Marks, Ms. Macioce, and Mr. Elliott, received a misleading email stating:

Your ballot has been received by WASHINGTON County as of [DATE]. If your county election office identifies an issue with your ballot envelopes that prevents the ballot from being counted, you may receive another notification. Otherwise, you will not receive any further updates on the status of your ballot from this email address and you are no longer permitted to vote at your polling place location.

Please note, if WASHINGTON County observes an issue with your ballot envelopes, you may receive another email from this account with additional information. To get more information on your ballot's status, you can look it up at

https://www.pavoterservices.pa.gov/Pages/BallotTrackin g.aspx. If you have questions about your ballot, please contact WASHINGTON County at (724) 228-6750.

See Stip. Facts, Exs. A, B, C (Dkt. No. 11); Ostrander Tr. 66:14-23; 123:18-124:24; 162:23-163:7; 218:5-219:4 (Ex. 1) (agreeing that the language in the SURE emails generated by Washington County's input of the "Record – Ballot Returned" code was "misleading"). Voters checking the DOS online tracker to determine the status of their mail-in ballot saw a similar misleading message. Stip. Facts, Ex. D at 15 (Dkt. No. 11).

In the end, Washington County disenfranchised 259 eligible mail-in voters, including the seven Voter-Appellees, who timely returned ballot packets with defects, representing 2% of all timely-received mail-in ballots. *See* Stip. Facts ¶¶

51-52 (Dkt. No. 11); Ostrander Tr. 118:21-24 (Ex. 1). These voters are both Democrats and Republicans. *See* Stip. Facts ¶ 52 (Dkt. No. 11). Not one of these voters knew to vote a provisional ballot on Election Day. *Id.* ¶ 49. Only on May 17, 2024—nearly a month after the primary election—did the Board respond to a Right-To-Know-Law request that revealed the names of the 259 voters whose mail-in ballots had been segregated and not counted due to disqualifying errors. *Id.* ¶ 51.

#### IV. The November Election

Counties can begin processing mail-in ballot applications for the November 5, 2024, general election on September 16, 2024. 25 P.S. § 3150.12a(a). Washington County has not changed its mail ballot practices since the 2024 primary election, and the Board's composition has not changed. Washington County's Elections Director has testified that, in keeping with past practice, in the November 2024 general election the Washington County Board of Elections will "most likely" handle mail-in ballots with disqualifying errors on the declaration envelopes in the same way it did for the April 2024 primary. Ostrander Tr. 126:14-127:14 (Ex. 1). As a result, the Board's election office will continue to miscode mail-in ballots with disqualifying errors on the declaration envelope in the SURE system to conceal voters' ballot status, and hundreds and potentially thousands of

qualified, eligible mail-in voters in Washington County will once again have their vote cancelled without their knowledge, in violation of procedural due process.

#### **SUMMARY OF ARGUMENT**

Due process is not a choice: Article I, Section 1 of the Constitution demands it. Unable to deny this, Appellants argue instead that this Court cannot enforce the Pennsylvania Constitution's Due Process Guarantee because Appellees' case is not ripe, because it is foreclosed by *Pa. Dems.*, and because doing so would constitute "judicial legislation" that "reduces Pennsylvania's constitutional separation of powers to precatory musings." Brief of Appellants Republican National Committee and Republican Party of Pennsylvania ("GOP Br.") 39, 42.<sup>7</sup> None of these arguments support reversal.

First, Appellees' case is ripe. The Board's current practice for handling mail-in ballots deprives voters who make disqualifying mistakes on their ballot envelopes of any notice that their ballot has been segregated and their vote will not be counted. Until and unless the Board changes course, Appellees' due process rights will continue to be violated, and they are entitled to seek relief from this Court.

16

<sup>&</sup>lt;sup>7</sup> Appellant Washington County Board of Elections filed a brief adopting and joining in all the arguments set forth by the Republican National Committee and the Republican Party of Pennsylvania. Accordingly, although Appellees' brief cites only to the GOP brief throughout, the arguments addressed are attributed to both Appellants.

Second, the Due Process Guarantee requires pre-deprivation notice to voters who make disqualifying errors on their mail-in ballot envelopes. Appellees have a clear liberty interest in exercising their fundamental right to vote, which is constitutionally and statutorily protected in Pennsylvania. The Board's practice of segregating mail-in ballots with disqualifying errors, miscoding those ballots in the SURE system, and refusing to tell voters their ballots will not be counted constitutes a clear violation of due process under Mathews v. Eldridge, given the substantial interests at stake, the value of additional safeguards, and the de minimis burden those safeguards would impose on the Board.

Third, the lower court's order was a proper exercise of judicial review, and the relief granted was well within its discretion. Neither *Pa. Dems.*, nor the legislative act doctrine, nor prohibitions against "pre-canvassing" precluded the court below, and this Court now, from issuing an order upholding Appellees' constitutional rights and remedying their constitutional injuries.

This Court should affirm.

#### **ARGUMENT**

I. Appellants' Justiciability Attack Should Be Rejected, As the Issues Presented Below Were and Remain Ripe for Adjudication.

Appellants begin by arguing that Appellees' case should be dismissed because "no policy exists" in Washington County for handling mail-in ballots in the general election that is now only eight weeks away. GOP Br. 19. Appellants'

claim contradicts the Board's own record evidence and ignores the basic tenets of the ripeness doctrine.

The undisputed record demonstrates that in April of 2024, the Board implemented a procedure for handling mail-in ballots in which the elections office set aside mail-in ballots with disqualifying errors and then entered them into the SURE system using a code that deprived voters of notice that their vote would not be counted. Stip. Facts ¶ 42; Exs. A-C (Dkt. No. 11); Ostrander Tr. 67:9-23; 71:5-18 (Ex. 1). Board of Elections Director Melanie Ostrander testified that the Board's practice is to "review" its existing mail-in ballot process prior to each election and that, in keeping with past practice, the Board will "most likely" handle mail-in ballots with disqualifying errors on the declaration envelopes in November the same way it did for the April 2024 primary. Ostrander Tr. 126:14-127:14; 127:24-128:6 (Ex. 1).

Moreover, as demonstrated by the Board's own meeting minutes from 2023, a vote is not required to keep an existing mail-in ballot process in place. For example, at the Board's April 26, 2023 meeting, which was held ahead of the May 2023 primary, a motion was made, seconded, and approved to allow curing of certain mail-in ballots. *See* Stip. Facts, Ex. K (Dkt. No. 11). As Director Ostrander testified, the policy was subsequently applied to the November 2023 general election. Ostrander Tr. 127:4-13 (Ex. 1). However, there was no *new* vote held at

Accordingly, the lower court correctly held that Appellees' challenge was ripe for adjudication. To determine whether an action for declaratory and injunctive relief is ripe, courts consider "(1) whether the issues are adequately developed for judicial review, including whether the claim involves uncertain and contingent events that may not occur as anticipated or at all; and (2) what hardship the parties will suffer if review is delayed." *Banfield v. Cortes*, 922 A.2d 36, 45

\_

<sup>&</sup>lt;sup>8</sup> The cases relied on by Appellants are inapposite. GOP Br. 18. In *Disability Rights Pennsylvania*, Justice Wecht concluded plaintiffs' request for prospective relief was not ripe because it sought to remedy the impact of delays in mail service that "may or may not occur . . . in several weeks' time." *Disability Rights Pa. v. Boockvar*, 660 Pa. 210, 211 (2020) (Wecht, J., concurring). Here, there is no question of what will occur in November: Washington County's *current* mail-in ballot procedure violates Appellees' procedural due process rights, and the only "speculation" about whether that policy will be in place in November is introduced by the Board and is entirely within its control. Moreover, in *Delisle*, the Court did not dismiss the case on ripeness grounds, but merely declined to exercise King's Bench authority. *Delisle v. Boockvar*, 660 Pa. 253, 254 (2020) (Wecht, J., concurring).

(Pa. Commw. 2007). An action is ripe for adjudication so long as "the claims of the several parties in interest, while not having reached the active stage, are nevertheless present, and indicative of threatened litigation in the immediate future, which seems unavoidable . . . ." *Berwick Twp. v. O'Brien*, 148 A.3d 872, 881 (Pa. Commw. 2016) (citation omitted).

Applying this framework, the court below held that this standard was clearly met here: "although the Board may change its policy, the policy used at the April 2024 primary election is still in effect; the parties have stipulated to sufficient factual findings for this Court to resolve the issue, and the parties are sufficiently adverse. Additionally, this Court finds that even if the case could be developed more, doing so would place a hardship on the parties in not having a result in time for the November general election." Op. 12 (Dkt. No. 25). This Court should affirm the lower court's well-reasoned conclusion. The undisputed record demonstrates that absent court intervention, this November the Board will continue to deprive voters of timely notice that their mail-in ballot envelope has a disqualifying error and their vote will not be counted. If the court delays its review of Appellees' claim until after the Board once again starts segregating and miscoding mail-in ballot status for the November election, another cycle of voters will be foreclosed from rescuing their right to vote, disenfranchising hundreds of voters in Washington County. The Court does not need to wait for this harm to

occur to address it. *See Berwick*, 148 A.3d at 881; *see also Phantom Fireworks Showrooms, LLC v. Wolf*, 198 A.3d 1205, 1217-18 (Pa. Cmwlth. 2018) (an action for declaratory and injunctive relief is ripe where it presents the "ripening seeds of a controversy") (quotation and citation omitted). Appellees' challenge is ripe for adjudication now.

# II. Washington County's Practice of Concealing Information and Misleading Voters About the Status of Their Mail-In Ballots Violates Article I, Section I of the Pennsylvania Constitution.

Procedural due process is an "axiom of American jurisprudence" that "imposes constraints on governmental decisions which deprive individuals' of any . . . fundamental rights." *Washington v. Pa. Dep't of Corr.*, 306 A.3d 263, 284 (Pa. 2023) (citing *Mathews v. Eldridge*, 424 U.S. 319, 332 (1976)). Due process "minimize[s] substantively unfair or mistaken deprivations of life, liberty, or property by enabling persons to contest the basis upon which a State proposes to deprive them of protected interests." *Washington*, 306 A.3d at 285 (quoting *Carey v. Piphus*, 435 U.S. 247, 259 (1978)).

"The central demands of due process are notice and an opportunity to be heard at a meaningful time and in a meaningful manner." *Bundy v. Wetzel*, 184 A.3d 551, 557 (Pa. 2018) (internal citation and quotations omitted). "Notice is the most basic requirement of due process.... Notice should be reasonably calculated to inform interested parties of the pending action.... The form of the notice required

depends on what is reasonable, considering the interests at stake and the burdens of providing notice." *Bornstein v. City of Connellsville*, 39 A.3d 513, 519 (Pa. Commw. Ct. 2012) (quoting *Pa. Coal Mining Ass'n v. Ins. Dep't*, 370 A.2d 685, 692–93 (Pa. 1977)).

Pennsylvania courts "examine procedural due process questions in two steps: the first asks whether there is a life, liberty, or property interest with which the state has interfered, and the second examines whether the procedure[s] attendant to that deprivation are constitutionally sufficient." *S.F. v. Pennsylvania Dep't of Hum. Servs.*, 298 A.3d 495, 510 (Pa Commw. Ct. 2023), citing *Kentucky Dep't of Corr. v. Thompson*, 490 U.S. 454, 460 (1989) ("*Thompson*"). The lower court applied the proper two-step analytical framework. This Court should affirm based either on the lower court's reasoning, or on an even more straightforward basis for identifying a liberty interest, namely, under the Pennsylvania Constitution.

# A. The Board's actions have interfered with voters' constitutionally and statutorily protected liberty interests.

The first step requires identifying a life, liberty, or property interest.

Commonwealth v. Turner, 80 A.3d 754, 764 (Pa. 2013). States "create[] a protected liberty interest by placing substantive limitations on official discretion."

Thompson, 490 U.S. at 462 (citation omitted); Robles v. Pennsylvania Dep't of Corr., 718 A.2d 882, 883 (Pa. Commw. Ct. 1998) ("The most common manner by

which a state creates such a liberty interest is by establishing 'substantive predicates' to govern official decision making and by mandating the outcome of those decisions on finding that the relevant criteria have been met.").

Here, two sources of law, the Pennsylvania Constitution and the Election Code, independently establish a protectable liberty interest in voting. While the lower court relied on two Election Code provisions, Op. 17 and 21 (Dkt. No. 25), the Pennsylvania Constitution's voting provisions provide a more straightforward basis for this Court to affirm the finding of a liberty interest. A long line of cases holds that the Pennsylvania Constitution serves as a "basis" to establish "fundamental interest[s] which cannot be abridged without compliance with constitutional standards of due process...." *R. v. Com., Dep't of Pub. Welfare*, 636 A.2d 142, 149 (Pa. 1994) (state constitutional protection for reputation triggers procedural due process) (citations omitted). *See also, J.P. v. Dep't of Hum. Servs.*, 170 A.3d 575, 581 (Pa. Commw. Ct. 2017).

Voting is a fundamental right under the Pennsylvania Constitution. *See, e.g.*, *Applewhite v. Commonwealth*, 54 A.3d 1, 3 (Pa. 2012); *Appeal of Norwood*, 116 A.2d 552, 553 (Pa. 1955) (voting is "the most treasured prerogative of citizenship"). Unlike the U.S. Constitution, which has no provision expressly protecting the right to vote, the Pennsylvania Constitution protects voting in two clauses: Article I, Section 5 ("Elections shall be free and equal; and no power, civil

or military, shall at any time interfere to prevent the free exercise of the right of suffrage"); and Article VII, Section 1 ("Every citizen twenty-one years of age, possessing the following qualifications, shall be entitled to vote at all elections...").

Moreover, our Supreme Court has linked the right to vote directly to citizens' freedoms, noting its place in the Declaration of Rights and observing that "the plain and expansive sweep of the words 'free and equal,' . . . [is] indicative of the framers' intent that all aspects of the electoral process, to the greatest degree possible, be kept open and unrestricted to the voters of our Commonwealth." *See League of Women Voters of Pa. v. Commonwealth*, 178 A.3d 737, 804 (Pa. 2018). Indeed, a liberty interest in exercising the franchise is inherent in the Court's understanding of the right itself, which guarantees not only that "each voter under the law has the right to cast his ballot and have it honestly counted" but that voting not be encumbered by "regulation of the right to exercise the franchise" that could "deny the franchise itself, or make it so difficult as to amount to a denial." *Winston v. Moore*, 91 A. 520, 523 (Pa. 1914).

Appellees argued the constitutional grounding for the liberty interest in the court below, and Appellants do not address it in their brief to this Court other than

in a footnote. GOP Br. 25, n. 6. But clearly the constitutional protection for voting creates a liberty interest under Pennsylvania law.<sup>9</sup>

The lower court charted a different, but still correct course, holding that "protected liberty interests for purposes of procedural due process may be created by state law," and that under the Election Code, voters' statutory right to vote a provisional ballot under 25 P.S. 3150.16(b)(2), and to challenge the decisions of the canvass board under 25 P.S. 3157, constitute liberty interests. Op. 17 (Dkt. No. 25). These interests were directly impaired by the Board's actions, triggering the right to due process protections: both the right to cast a provisional ballot and the right to challenge the determination of the canvassing board are extinguished if the County fails to notify the voter before Election Day that their mail-in ballot will not be counted because of a disqualifying error on the mail ballot envelope.

<sup>&</sup>lt;sup>9</sup> It is also instructive that the majority of federal district courts that have considered the question have found that voting is a liberty interest entitled to the protections of due process. The earliest case goes back to the 1960's. See United States v. Texas, 252 F.Supp. 234, 250 (W.D.Tex.1966) (right to vote is "included within the concept of liberty"), aff'd per curiam, 384 U.S. 155 (1966) (mem.). Since then, a parade of courts have so held. See, e.g., Raetzel v. Parks/Bellemont Absentee Election Bd., 762 F. Supp. 1354, 1356–57 (D. Ariz. 1990); Doe v. Rowe, 156 F. Supp. 2d 35, 47–48 (D. Me. 2001); Zessar v. Helander, No. 05-C-1917, 2006 WL 642646, \*6 (N.D. III. Mar. 13, 2006); Saucedo v. Gardner, 335 F. Supp. 3d 202, 217 (D.N.H. 2018); Martin v. Kemp, 341 F. Supp. 3d 1326, 1338 (N.D. Ga. 2018), denying stay pending appeal, Georgia Muslim Voter Project v. Kemp, No. 18-14502-GG, 2018 WL 7822108 (11th Cir. Nov. 2, 2018); Self Advocacy Sols. N.D. v. Jaeger, 464 F. Supp. 3d 1039, 1052 (D.N.D. 2020); Democracy North Carolina v. North Carolina State Bd. of Elections, 476 F. Supp. 3d 158, 227 (M.D.N.C. 2020); Frederick v. Lawson, 481 F. Supp. 3d 774, 788 (S.D. Ind. 2020); League of Women Voters of S.C. v. Andino, 497 F. Supp. 3d 59, 77 (D.S.C. 2020), appeal dismissed (as likely moot) and remanded, 849 F. App'x 39 (4th Cir. 2021) contra, The two cases cited by Appellants are outliers. Richardson v. Texas Sec'y of State, 978 F.3d 220, 230 (5th Cir. 2020); League of Women Voters of Ohio v. Brunner, 548 F.3d 463, 478-79 (6th Cir. 2008).

Notably, Appellants' challenge to 25 P.S. § 3150.16(b)(2) as a predicate for a liberty interest, GOP Br. 28-29, ignores this Court's recent decision holding that voters' whose mail ballots are disqualified have a right to vote a provisional ballot and have it counted. *See Genser, et al. v. Butler County Board of Elections, et al.*, No. 1074 C.D. 2024, 2024 WL 4051375 (Pa. Cmwlth. Sept. 5, 2024) (petitions for allowance of appeal filed, 240 WAL 2024, 241 WAL 2024, 242 WAL 2024, 243 WAL 2024). *Genser* solidifies that Election Code right as a second, independent source for a protected liberty interest, triggering the *Mathews* balancing analysis. <sup>10</sup>

# B. Due Process Requires Pre-Deprivation Notice to Voters Who Make Disqualifying Errors on Their Mail-In Ballot Envelopes.

Having concluded that there was a protectible liberty interest, the court below correctly applied the test set out in *Mathews v. Eldrige*, 424 U.S. 319 (1976) and concluded that the Board had violated the due process rights of Voter-Appellees. Appellants have failed to identify any error in that analysis.

## 1. Appellants Now Agree that the *Mathews* Test Applies.

While Appellants disputed the applicable standard below, it is now common ground that the proper test for evaluating the due process violation in this case is

26

<sup>&</sup>lt;sup>10</sup> Appellants also misapprehend the essence of procedural due process analysis, confusing the identification of a protected interest with the process due. They argue that *Pa. Dems*. forecloses any right to notice and cure. GOP Br. 17. But the issue is what life, liberty or property interest is affected, and that is the right to vote. Upon identifying that interest, applying the balancing test required by the second part of the *Mathews* analysis dictates what process is due whenever the interest is jeopardized. As discussed below, pre-deprivation notice is a clear minimum requirement.

set out in *Mathews*. <sup>11</sup> Pennsylvania courts have long applied the three-part *Mathews* balancing test. *See Washington*, 306 A.3d at 284-85; *R v. Pa. Dep't of Pub. Welfare*, 636 A.2d at 152-53. Under *Mathews*, courts balance the following three factors: 1) the private interest affected; 2) the risk of an erroneous deprivation and the value of additional or substitute safeguards; and 3) the state's interest, including the burdens the additional or substitute procedural requirements would impose on the state. *Washington*, 306 A.3d at 300 (citations omitted).

The Pennsylvania Supreme Court has used the *Mathews* test to set forth an expansive view of procedural due process, explaining that "[t]hese rules are intended to 'minimize substantively unfair or mistaken deprivations of life, liberty, or property by enabling persons to contest the basis upon which a State proposes to deprive them of protected interests." *Washington*, 306 A.3d at 284 (citing *Carey v. Piphus*, 435 U.S. 247, 260 (1978). This expansive view of due process aligns with the importance that Pennsylvania courts place on the "sacred," "fundamental" right to vote, which Pennsylvania considers "the most treasured prerogative of citizenship." *Page v Allen*, 58 Pa. 338, 347 (1868); *Kuznik v. Westmoreland Cnty*.

\_

<sup>&</sup>lt;sup>11</sup> Appellants reference the *Anderson/Burdick* framework in passing in a footnote, but do not develop the issue. GOP Br. 30, n. 8. However, the Board's actions would also flunk the *Anderson/Burdick* test. *See also* Op. 21 ("In the alternative, if this Court were to evaluate Plaintiffs' due process claims under the *Anderson/Burdick* framework . . . the result remains the same.").

Bd. of Comm'rs, 902 A.2d 476, 488 (Pa. 2006); Applewhite v. Commonwealth, 54 A.3d at 3; Appeal of Norwood, 116 A.2d at 553.

### 2. *Mathews* Requires Pre-Deprivation Notice That Provides Voters an Opportunity to Rescue Their Vote.

Each of the three *Mathews* factors weigh in favor of finding that the Board's practices violate voters' procedural due process rights. The Board has chosen to segregate mail-in ballots with disqualifying errors on the declaration envelope prior to Election Day, miscode those ballots in the SURE system, and refuse to tell voters that their ballots will not be counted. Collectively, these decisions serve to deny the voters any ability to learn that their vote will not be counted, depriving those voters of the franchise without any form of notice. Considering the substantial interests at stake, the value of additional safeguards, and the de minimis burden those safeguards would impose on the County, the court below properly found that the Board's actions constitute a clear due process violation that must be appropriately remedied.

#### a. Factor 1: The Private Interests Affected

For due process to attach under Article I, Section 1, the alleged deprivation must implicate a life, liberty, or property interest. *Commonwealth v. Turner*, 80 A.3d 754, 764 (Pa. 2013). To determine whether an asserted interest triggers due process protections, the Pennsylvania Supreme Court has held that the fact that an interest "is recognized and protected by our highest state law[,] our Constitution"

through "explicit reference . . . provid[es] the basis for this Court to regard it as a fundamental interest which cannot be abridged without compliance with constitutional standards of due process." *R v. Dep't of Public Welfare*, 636 A.2d 142, 149 (Pa. 1994) (finding that the fundamental right to reputation under the Pennsylvania Constitution triggers due process protections).

As explained above, the Board's actions affect citizens' constitutionally and statutorily protected liberty interests in their right to vote. The court below properly held that each voter has a clear and unequivocal right to challenge decisions made by the county canvass board under 25 P.S. § 3157. Op. 21 (Dkt. No. 25). Voters also have a statutory right to cast a provisional ballot if their mail-in ballot is not recorded on the district register under 25 P.S. § 3150.16(1). See also Genser, et al. v. Butler County Board of Elections, et al., No. 1074 C.D. 2024, 2024 WL 4051375 (Pa. Cmwlth. Sept. 5, 2024) (petitions for allowance of appeal filed, 240 WAL 2024, 241 WAL 2024, 242 WAL 2024, 243 WAL 2024). Indeed, federal law guarantees the right to case a provisional ballot in any circumstance. 52 U.S.C. § 21082. And, of course, the right to vote is enshrined in Article I, Section 5 and Article VII, Section 1 of the Pennsylvania Constitution. These are all protectible interests.

## b. Factor 2: The Unacceptably High Risk of Erroneous Deprivation

As the court below found, "[t]he risk of erroneous deprivation of that interest is high as electors have no notice that their ballot has been segregated and presumptively will not be counted." Op. 21 (Dkt. No. 25). The Board's actions preclude any means for voters to learn if their mail-in ballot declaration envelopes have a disqualifying error before Election Day. Furthermore, without notice, the voter has no opportunity to appear at the canvas and challenge a decision to reject a ballot, nor will the voter know to go to the polls and vote a provisional ballot. Indeed, the voter's right to vote will be extinguished. That is precisely what happened in Washington County—not a single voter who made a disqualifying error on their mail ballot packet in the April 2024 primary voted a provisional ballot. Stip. Facts ¶ 49 (Dkt. No. 11).

It is unconscionable that a government agency would hide information relating to mail-in ballot status, much less deliberately enter a code that triggers false emails to voters through the SURE system telling voters all is well with their ballot packet. As the Pennsylvania Supreme Court recently explained, the government should not engage in a "secret, one-sided determination of facts decisive of rights." *Washington*, 306 A.3d at 266. The Board's handling of mail-in ballots and misuse of the SURE system constitute just such a secret determination and leaves the voters powerless. Voters will be unable to learn that their right to

vote will be taken away, providing them no opportunity to challenge that decision or vote with a provisional ballot to preserve their right. <sup>12</sup> And the voters will have no reason to challenge the Board's decision under 25 P.S. § 3157 because they do not know in advance that their ballot will not be counted. Combined, these factors make disenfranchisement a foregone conclusion and guarantee that qualified, eligible voters who timely return their ballots will nevertheless be deprived of their right to vote—an inexcusable result. See *Perles v. Cnty. Return Bd. of Northumberland Cnty.*, 202 A.2d 538, 540 (Pa. 1964) ("The disfranchisement of even one person validly exercising his right to vote is an extremely serious matter.").

Further, as the Pennsylvania Supreme Court has held, the "controlling inquiry" under the second *Mathews* factor is "whether the state is in a position to provide for pre-deprivation process." *Washington*, 306 A.2d at 296 (internal citations omitted). Here there can be no question that the Board is well-positioned to provide that process. The lower court's injunction orders the Board to do no more than what the Board did prior to this new policy: it must only "notify any

<sup>&</sup>lt;sup>12</sup> Recognizing the inherent problem in destroying the franchise without providing a mechanism to challenge that decision, Appellants suggest that voters are able to challenge the determination not to count a mail-in ballot by attending the meeting of the canvass board. GOP Br. 27, 31. But without knowing that their vote will not be counted, voters have no reason to attend that canvass board meeting in the first place. For this reason, the court below compared Appellants' suggestion to "conducting a sheriff's sale of property without any advertisement of which properties are to be sold and expecting any concerned individual to appear to ensure that their property is not one affected." Op. 22, n. 94 (Dkt. No. 25).

elector whose mail-in packet is segregated for a disqualifying error" and "input the accurate status of the mail-in packet in the SURE system and provide the status to the elector if requested." Op. 27 (Dkt. No. 25). Doing so ensures that voters with an email address on file would receive an email alerting them that their mail-in packet has an error and that they have an option to "go to [their] polling place on election day and cast a provisional ballot." See Stip. Facts, Ex. D at 8-9 (Dkt. No. 11). Without accurate information in SURE, political parties and nonprofit organizations, like Organizational Appellees, cannot reach out to affected voters and notify them of their disqualifying mistakes and their option for preserving their right to vote by voting a provisional ballot at their polling place on Election Day. Id. ¶ 24; Marks Tr. 28:19-22 (Dkt. No. 17, Ex. 1). See 25 P.S. §§ 3146.9, 3150.17. Additionally, with accurate information in SURE, voters would know that their mail-in ballot was set aside to be disqualified, and would know to go to the canvas board meeting to potentially challenge that disqualification. The court below correctly found that the Board's actions create an unreasonably high risk of erroneous deprivation. Op. 21 (Dkt. No. 25). See Self Advoc. Sols. N.D. v. Jaeger, 464 F. Supp. 3d 1039, 1053 (D.N.D. 2020) (holding the "value of additional procedures to safeguard against erroneous ballot rejections" becomes "apparent" where "[t]he result is the outright disenfranchisement of otherwise qualified electors").

Because the risk of deprivation is so severe, and because the value of additional pre-deprivation process is substantial, the second *Mathews* factor weighs in favor of Appellees.

#### c. Factor 3: The Minimal Burden on the Board

The record in the lower court is clear that compliance with the lower court's order would lay little, if any, burden on the Board. The Board is already obligated to use the SURE system for tracking mail-in ballots. See 25 Pa.C.S. § 1222; 4 Pa. Code § 183.4(b)(2); 25 P.S. § 3150.16(b)(1). The order below serves only to have the Board do the exact same thing with mail-in ballots that it did in 2023: timely enter accurate ballot information in the SURE system to inform voters of any potential issues with their mail-in ballots, a process that takes less than a minute. Ostrander Tr. 38:7-14. (Ex. 1). Indeed, the majority of counties across Pennsylvania do exactly what Washington County did in 2023, demonstrating that the burden on the Board would be de minimus. See Democracy N.C., 476 F. Supp. 3d at 229 (finding the burden to the state of providing pre-rejection notice to be "minimal" where "several counties have processes in place already"). As the court below correctly observed, "the great staff in the elections office have proven to be more than capable of contacting electors based on the Board's 2023 policy." Op. 21 (Dkt. No. 25). Appellants have not shown that finding is clearly erroneous; indeed, they do not challenge it at all.

In summary, the Court below, weighing all three of the *Mathews* factors, properly found that the Board violated Appellees' procedural due process rights.

Op. 21 (Dkt. No. 25). Appellants have provided no basis to overturn that considered decision.

## III. The Lower Court Correctly Held That *Pa. Dems. v. Boockvar* Does Not Bar Appellees' Claim under the Pennsylvania Constitution's Due Process Guarantee.

Appellants' arguments hinge on their repeated assertions that no process is due to mail-in voters because they have no right to "notice and cure" under the Pennsylvania Supreme Court's decision in *Pa. Dems.*, 238 A.3d 345. *See* GOP Br. 1-2, 24, 32-38. But as the lower court correctly held, *Pa. Dems.* does not foreclose Appellees' procedural due process claim for two reasons. First, Pa. Dems. "did not raise due process," Op. 20 (Dkt. No. 25), and the issues being addressed in the current case are "issues of first impression." Id. 2. Second, this case is distinguishable from Pa. Dems. because Appellees are not asking for the Court to mandate boards to adopt a notice and opportunity to cure policy as Appellants claim. GOP Br. 33. Rather Appellees are asking to be notified of disqualifying errors on their declaration envelope under Article I, Section 1 of the Pennsylvania Constitution while there is still time to vote by casting a provisional ballot. And although the lower court was not asked and did not rule on whether the Board would ultimately be required to count that provisional ballot, the lower court

correctly found that the "process of a voter submitting a provisional ballot is not a 'cure'...but an altogether independent action" required by a separate provision of the Election Code. Op. 23 (Dkt. No. 25). See Genser, et al. v. Butler County Board of Elections, et al., No. 1074 C.D. 2024, 2024 WL 4051375 at 2 (Pa. Cmwlth. Sept. 5, 2024) (petitions for allowance of appeal filed, 240 WAL 2024, 241 WAL 2024, 242 WAL 2024, 243 WAL 2024) ("question about provisional voting and counting provisional ballots...is distinct from the question whether an elector can cure a defect in a mail-in ballot"). Indeed, this Court's recent decision in Genser that the Election Code "independently authorizes electors to vote by provisional ballot, and, when properly construed, it requires the County to count the provisional ballots here," id., further supports that Pa. Dems. does not bar Appellees' claim.

#### 1. Pa. Dems. Was Not a Procedural Due Process Case.

Appellants continue to misstate Pennsylvania precedent. *Pa. Dems*. was not a procedural due process case. It did not involve a claim under Article I, Section 1 of the Pennsylvania Constitution. Rather, the petitioners in that case, which was filed shortly after mail-in voting was adopted and implemented, sought to require county boards of election to provide "notice and cure procedures" under the Free and Equal Elections Clause of the Pennsylvania Constitution, Pa. Const. art I, § 5, and the "spirit of the Election Code." 238 A.3d at 372-73. The Court held that

counties were not required to implement a "notice and cure procedure" because "Petitioner [had] cited no constitutional or statutory basis that would countenance imposing the procedure Petitioner seeks to require." *Id.* at 374.

Appellees in the case before this Court rely on a distinct constitutional challenge, alleging that the Board's segregation of mail-in ballots and failure to timely notify voters through the SURE system that they made a disqualifying error on their ballot envelope violates the basic tenets of procedural due process. This question has never before been considered or decided by a Pennsylvania court. The Court in *Pa. Dems*. did not conduct an analysis of the interest that was at stake—the fundamental right to vote—or the process that was due under Article I, Section 1 before a board of elections can deny voters their fundamental right. Nor did the Court in *Pa. Dems*. hold that there is no right to procedural due process. <sup>13</sup> *See e.g.*, GOP Br. 33. The Court did not even mention procedural due process. <sup>14</sup> In short,

1

<sup>&</sup>lt;sup>13</sup> Likewise, the Appellants' reliance on an unreported decision by a single Judge in *Republican Nat'l Comm. v. Schmidt*, No. 447 M.D. 2022, 2022 WL 16754061, at \*17 (Pa. Cmwlth. Sept. 29, 2022) misses the mark. GOP Br. 34. That case was also not a procedural due process case, does not preclude Appellees' claim, and does not stand for the proposition that providing predeprivation notice is discretionary under the constitution's Due Process Guarantee.

<sup>&</sup>lt;sup>14</sup> Nor did Justice Wecht address procedural due process as Appellants assert. GOP Br. 36. He did not consider whether voters are entitled to procedural due process protections under Article I, Section 1, because that issue was never raised and nothing in *Pa. Dems*. relieves the Board of its constitutional duty to provide voters with due process. The Supreme Court in *Pa. Dems*. declined to create a new notice and cure system, but it did not sanction the Board's practice of misusing the existing SURE system to hide that a voter's ballot would not be counted.

the lower court did not "plainly disregard" *Pa. Dems.*; the case is inapplicable. GOP Br. 32.

Moreover, the petitioners in *Pa. Dems*. sought sweeping relief, asking the Court to invoke its "broad authority to craft meaningful remedies" and create and mandate a statewide procedure out of whole cloth that would require boards of elections to contact voters and provide an opportunity to cure defective mail-in ballots. 238 A.3d at 373. The Court declined, particularly in light of the "open policy questions attendant to that decision, including what the precise contours of the procedure would be [and] how the concomitant burdens would be addressed," *id.* at 374, as well as "the lack of any proposal regarding a practicable manner of relieving the problem alleged." *Id.* at 389 (Wecht, J., concurring).

But four years later the "contours of the procedure" and the "concomitant burden" are not open policy questions as Appellants would have this Court believe. GOP Br. 32. And the "practicable manner of relieving the problem" is in place. Appellees ask for narrow relief: only that the Court direct the Board to use the existing infrastructure provided by the Department of State—the SURE system—to enter a code to notify voters about known errors on their ballot envelope before the right to vote is irrevocably lost. Failure to input accurate ballot statuses in this statewide system, which provides automated pre-Election Day notice to voters,

violates the due process rights of mail-in voters whose ballots will be rejected for disqualifying mistakes on their declaration envelopes.

In short, neither this legal claim nor these facts were before the Pennsylvania Supreme Court in *Pa. Dems*. Contrary to Appellants' repeated assertions, this Court is not being asked to ignore precedent. Rather, this Court is being asked to rule, as the lower court correctly observed, on an issue of first impression, but one that is based on longstanding and foundational principles of fairness. *See*, *e.g. Washington*, 306 A.3d at 267 ("a democratic government must practice fairness to be worthy of its name, and procedural due process must be afforded ...when state action infringes on a fundamental right"); *Turner*, 80 A.3d at 763-764 (due process "expresses the requirement of 'fundamental fairness'").

Finally, the court below did not "usurp the province of the legislature by rewriting statutes," GOP Br. 34, 38, or act as a "Supreme, or even a Superior Legislature" or engage in "judicial legislation," GOP Br. 39 or "weigh[] in on [] political policy judgments." GOP Br. 40. Rather, the court below, like this Court, is asked to conduct a routine application of bedrock principles of judicial review. Whether the Board's denial of voters' fundamental right to vote without predeprivation notice violates the procedural due process requirements of the Pennsylvania Constitution is not a question entrusted to the legislature; it is

squarely in the judiciary's domain to adjudicate. *See, e.g., Washington*, 306 A.3d at 285.

2. The Right to Vote by Provisional Ballot Is Separate and Distinct From "Curing" As This Court Recently Held In Genser v. Butler County Board Of Elections.

Appellants' argument that *Pa. Dems*. is controlling is also grounded in their ongoing conflation of the separate concepts of mail-in ballot curing and the casting of a provisional ballot. GOP Br. 33. Although the Court in Pa. Dems. held that curing is not required, provisional voting and curing are not the same. As the lower court recognized and as this Court just held in Genser "[a] provisional ballot is not a 'cure' of a voter's defective mail-in ballot as discussed in [Pa. Dems.] but is a statutory fail-safe guaranteed by the Election Code to prevent voter disenfranchisement in a diverse array of circumstances." Genser, 2024 WL 4051375 at \*14; Op. 23 (Dkt. No. 25). See also Keohane v. Del. Cnty. Bd. of Elections, CV-2023-004458, at \*3 (Del. Cnty. Ct. Common Pleas Sept. 21, 2023) (ordering the Delaware County Board of Elections to count provisional ballots cast by voters whose mail-in ballots were rejected). Thus, this Court has already rejected Appellants' arguments that counting Voter-Appellees' provisional ballots would "mandate that a county board of elections adopt a notice-and-cure procedure," GOP Br. 1, in violation of the Court's holding in *Pa. Dems. Genser* Op. 32.

Here, the Board's conduct foreclosed voters' ability to rescue their fundamental right to vote by casting a provisional ballot, a right this Court has now recognized. *Id.* Accordingly, this Court should affirm the lower court's order requiring the Board to "input the accurate status of the mail-in packet in the SURE system and provide the status to the elector if requested," Op. 2 (Dkt. No. 25), to ensure voters have the notice necessary to enable them to preserve their right to vote.

## IV. The Court Below Correctly Held That The Legislative Act Doctrine Is Inapplicable.

The lower court correctly rejected Appellants' argument that the "Legislative Act Doctrine" immunizes Washington County's handling of disqualified mail ballots from a procedural due process challenge. Op. 14-16 (Dkt. No. 25). Appellants mischaracterize Appellees' claim. GOP Br. 21-22. Appellees are not challenging the Board's legislative adoption of the April policy. Rather, they challenge the *practice* mandated by the Board, for processing individual voters' mail-in ballots in the April 2024 primary and in the upcoming November election. *See* Compl. ¶ 67-82. Specifically, Appellees are challenging the series of individualized determinations the election staff have made and will make going forward: to set aside a voter's mail ballot because it has a known disqualifying error on the envelope; to miscode that ballot in the SURE system so that the voter never knows the ballot will not count even though there is still time for the voter to

preserve their fundamental right to vote by provisional ballot; and ultimately to not count the voter's mail ballot. *Id*. These decisions are not legislative acts. They are adjudicative acts to which the legislative act doctrine does not apply.

The legislative act doctrine holds that "procedural due process concerns are implicated only by adjudications, not by state actions that are legislative in character." *Washington*, 306 A.3d at 298 (internal citation and quotations omitted). However, just because legislation directs agency action does not make the latter a legislative act, as Appellants suggest. GOP Br. 22. Due process safeguards still apply to "[a]djudicative agency actions [] that affect one individual or a few individuals, and apply existing laws or regulations to facts that occurred prior to the adjudication." *Small v. Horn*, 722 A.2d 664, 671, n.12 (Pa. 1998).

Washington, relied on by the court below and the Pennsylvania Supreme Court's most recent examination of the legislative act doctrine, illustrates why the doctrine does not apply. There, the Court held that even though a state statute increased the garnishment rate for inmate accounts, the agency implementing the statute, the Department of Corrections ("DOC"), must give prisoners "predeprivation notice and an opportunity to be heard" before increasing prisoner's individualized garnishment rate. Washington, 306 A.3d. at 267.

Here, like in *Washington*, the Board verbally directed a "subordinate body," the County Elections Office, to make individualized determinations about whether

the envelope transmitting each mail-in ballot contains a disqualifying error and to conceal information about the impending ballot disqualification from the voter. *See* Stip. Facts ¶¶ 41-44 (Dkt. No. 11); Ostrander Tr. 67:9-23; 71:5-18 (Ex. 1). Accordingly, the court below correctly held that "the process of elections office staff screening and segregating mail-in ballots for those with disqualifying errors and then coding the ballot in the SURE system in a manner which provides no way for an individual voter to know that their ballot has been segregated affects a small portion of all mail-in voters and results in an adjudicative action." Op. 15 (Dkt. No. 25).

Because the challenge here is to the Elections Office's practice, as dictated by the Board, the legislative act doctrine does not shield Washington County from providing procedural due process before it disqualifies voters' ballots. The Board cannot direct its staff to deny voters due process and then claim immunity under the legislative act doctrine when challenged for denying constitutionally required procedural due process.

## A. The Scope Of Relief The Lower Court Granted Is Within Its Equitable Discretion.

Appellants assert that the lower court overstepped its authority in enjoining the Board to enter proper codes in the SURE system. GOP Br. 43-46. However, having found a violation of the Appellees' constitutional rights, the lower court had broad equitable powers to fashion relief. This Court reviews the scope of injunctive

relief under the abuse of discretion standard. *O.D. Anderson, Inc. v. Cricks*, 815 A.2d 1063, 1071 (Pa. Super. 2003); *RESPA of Pennsylvania, Inc. v. Silkman*, 768 A.2d 335, 339 (Pa. Super. 2001). There was no abuse in the lower court's injunction.

## 1. The lower court's issuance of an injunction did not "constitutionalize" use of the SURE system

The lower court properly issued an injunction ordering the Board (1) to "notify any elector whose mail-in packet is segregated for a disqualifying error, so the voter has an opportunity to challenge (not cure) the alleged defects," which includes inputting "the accurate status of the mail-in packet in the SURE system"; and (2) to "properly document in the poll books" a person whose mail-in packet is "segregated for a disqualifying error" and allow that individual to submit a provisional ballot at the polls. Op. 27-28 (Dkt. No. 25). The court noted that the Board could provide such pre-deprivation process through the SURE system, finding that "there is a framework in place where a different entry code can be placed into a computer to provide notice to an elector that their ballot will not be counted and is subject to challenge." Op. 21 (Dkt. No. 25).

The issuance of the injunction was not an abuse of discretion. While Appellants cast the ordered relief as "constitutionalizing" compliance with the SURE system, it is not at all clear what that means. Certainly, there is no bar to a lower court ordering a party to use the tools at its disposal to correct a

State to operate the SURE system has nothing to do with the scope of judicial power to correct a constitutional wrong. The SURE system is an existing tool used by the Board to notify voters of the status of their ballots. There is no error in requiring the Board to use the system in an honest and forthright way.

#### 2. The Lower Court's order does not violate the precanvassing provisions of the Election Code.

Appellants' statutory analysis on ballot handling is also wrong. For the first time on appeal, Appellants make a bizarre argument that Washington County election staff are barred from even looking at the outer declaration envelope until Election Day under the pre-canvassing rules. 25 P.S. §§ 2602(q.1), 3146.8(g)(1.1); GOP Br. 40-42, 45-46. The argument is not only wrong on the merits, it is waived because Appellants failed to raise the argument in the court below. See Pa.R.A.P. 302(a) ("Issues not raised in the lower court are waived and cannot be raised for the first time on appeal."); Commonwealth v. Agie, 296 A.2d 741, 741 (Pa. 1972) ("We have consistently held that issues not raised in the court below are waived...."). Accordingly, this Court should decline to review the issue on appeal. See Reilly by Reilly v. SEPTA, 489 A.2d 1291, 1300 (Pa. 1985) ("Waiver is indispensable to the orderly functioning of our judicial process and developed out of a sense of fairness to an opposing party and as a means of promoting

jurisprudential efficiency by avoiding appellate court determinations of issues which the appealing party has failed to preserve").

Should this Court decide to consider the pre-canvass issue, it should reject the argument out of hand. Appellants' arguments fail as a matter of statutory interpretation and the realities of election administration. Election staff routinely examine the outer declaration envelope to ensure completeness, and that is not "pre-canvassing" under the Election Code.

To the contrary, pre-canvassing is a multi-step process that begins at 7:00am on Election Day, *see* 25 P.S. § 3146.8(g)(1.1), during which the pre-canvass board opens mail-in ballot declaration envelopes, removes the secrecy envelopes, shuffles the secrecy envelopes, removes the ballots from them, unfolds the ballots and otherwise prepares those ballots for counting and recording at the canvass meeting that begins at the close of polls.<sup>15</sup> Attorneys and watchers appointed by

\_

<sup>&</sup>lt;sup>15</sup> Ms. Ostrander testified to the multistep nature of the pre-canvass. *See* Ostrander Tr., 103:15-104:8 (Ex. 1). During the pre-canvass process, Board staff open the declaration envelopes and remove the inner secrecy envelope. *Id.*, 103:18-22 (noting that the pre-canvass is the stage at which "absentee and mail-in ballots are officially allowed by the election law to be opened"); *see also* Marks Tr. 19:12-21 (Dkt. No. 17, Ex. 1). Next, the ballot is removed from the inner secrecy envelope, "unfolded and prepared for counting." Ostrander Tr., 103:25-104:3 (Ex. 1). Finally, the ballots are "ultimately opened and then tabulated." Marks Tr. 19:20-21 (Dkt. No. 17, Ex. 1). The pre-canvass is the first step in a multi-week process that culminates in the certification of the election, and is not the same as election workers "looking at the outer envelope on a ballot to make a determination as to . . . whether it was dated or signed." Marks Tr., 41:15-18 (Dkt. No. 17, Ex. 1); *see also id.*, 47:9-15 ("I want to make sure that we're distinguishing [pre-canvassing] from the intake the counties do prior to the pre-canvass, where they may observe, for example, an error that is made by a voter").

candidates and campaigns are permitted to observe this process. The Election Code defines the term "pre-canvassing" as follows:

"[T]he inspection and opening of all envelopes containing official absentee ballots or mail-in ballots, the removal of such ballots from the envelopes and the counting, computing and tallying of the votes reflected on the ballots. The term does not include the recording or publishing of the votes reflected on the ballots.

25 P.S. § 2602(q.1). Focusing only on the word "inspection" while leaving out the remainder of the statutory requirements that constitute "pre-canvassing," Appellants argue that the lower court has now ordered the Board to "**inspect mail** ballots prior to 7:00 a.m. on election day" (emphasis in original) in violation of the Election Code. *See e.g.* GOP Br. 41.

Straightforward principles of statutory interpretation make clear that merely *looking* at the unopened outer declaration envelope is not pre-canvassing. Instead, it is a process that necessarily must include inspecting *and* opening *and* counting *and* computing of ballots. *Rivera v. Philadelphia Theological Seminary of St.*Charles Borromeo, Inc., 507 A.2d 1, 8 (Pa. 1986) ("Grammatically, this construction is indicated by the dual presence of the conjunctive 'and' in the list').

Bloomsburg Town Ctr., LLC v. Town of Bloomsburg, 241 A.3d 687 (Pa. Commw. Ct. 2020) (The use of "and" in a provision connotes "a conjunctive rather than a disjunctive list of requirements"). See also, Com. v. Off. of Open Recs., 103 A.3d 1276, 1285 (Pa. 2014) (citations omitted) (every portion of statutory language is to

be read "together and in conjunction" with the remaining statutory language, "and construed with reference to the entire statute" as a whole).

Like counties across the state, the Board identifies and segregates mail-in ballots with disqualifying errors upon receipt at the election office. *See Ball v. Chapman*, 284 A.3d 1189 (Order dated Nov. 1, 2022) ("We hereby DIRECT that the Pennsylvania county boards of elections segregate and preserve any ballots contained in undated or incorrectly dated outer envelopes"). Ms. Ostrander's deposition testimony confirms that this administrative intake process, which includes reviewing sealed declaration envelopes for errors and segregating those ballot packets, does not constitute "pre-canvassing."

Under Appellants' new interpretation of pre-canvassing, the Board regularly violates the Election Code. In 2023, the election office routinely looked at the outer declaration envelope and determined whether the signature or date were missing by "examining it visually." Ostrander Tr. 41:4-13 (Ex. 1). *See id.* At 38:2-14 (reviewing the outer declaration envelopes for date or signature mistakes took "10-30 seconds or less"). The mail-in ballot packets with disqualifying errors—still unopened—were scanned into the SURE system using the "canceled" codes, locked in the mail-in ballot room, and "segregated" from packets that were correctly completed. *Id.* at 41:20-24. *See also id.* at 48:16-19 ("[t]he ballots that

were missing dates and signatures were in their own separate bin and filed alphabetically by precinct name").

This administrative sorting procedure for mail-in ballots was identical ahead of the 2024 election: mail-in ballots were reviewed by the election staff for disqualifying errors on the declaration envelope and segregated into separate bins. *Id.* 75:2-8 ("The ballots with the properly completed declaration envelope were in one bin for that precinct, and the ballots with the declaration envelope that contained a disqualifying error were in a different bin for that precinct"). The only difference between 2023 and 2024 was the Board's refusal to notify voters that their ballots had a disqualifying error and would ultimately not be counted. None of this constitutes pre-canvassing. *See also*, Marks Tr. 18:25-19:7 (Dkt. No. 17, Ex. 1) (Board must keep the mail-in ballots "secure until they begin pre-canvassing" but noting that "in the interim . . . they may be organizing them . . . to prepare for the pre-canvassing"). <sup>16</sup>

\_

<sup>&</sup>lt;sup>16</sup> Moreover, entering the accurate status of the ballots into the SURE system is not "disclos[ing] the results of any portion of any pre-canvass meeting prior to the close of the polls." 25 P.S. § 3146.8(g)(1.1), as Appellants argue. GOP Br. 41. The "results" referred to in this section refer to the outcome of the race, in other words, which candidate is winning after pre-canvassed ballots are tabulated. Appellants would have this court adopt an overly expansive reading of the word "results" when it is clearly intended to refer to the election results or the outcome of a particular race. Disclosure of tabulated election results before the close of the polls is prohibited in every state. *See* G. Gordon, et al., *Ballot Pre-Processing Policies Explained*, Bipartisan Policy Center, Sept. 7, 2022, available at <a href="https://bipartisanpolicy.org/explainer/ballot-pre-processing-explained/">https://bipartisanpolicy.org/explainer/ballot-pre-processing-explained/</a> ("No state releases the results of mail voting before polls close on Election Day. Machines are programmed to not tabulate ballots until Election Day and states impose legal penalties to protect against the early release of results"). Thus, there is absolutely no statutory prohibition against

As a matter of statutory interpretation, election administration, and common sense, nothing in the lower court's order interferes with or runs afoul of the "precanvassing" provisions under the Election Code. This Court should uphold the lower court's grant of a permanent injunction, so that Washington County voters are not deprived of their fundamental right to vote by the Board's unconstitutional practice of concealing the true status of mail-in ballots that contain disqualifying defects and will never be counted.

#### **CONCLUSION**

Appellees respectfully request that the Court deny Appellants' appeal and affirm the decision below.

Dated: September 11, 2024 Respectfully submitted,

informing voters that their sealed, mail-in ballot packet contains a disqualifying error on the outer envelope.

These are the approved minutes from the Board of Elections meeting on March 12, 2024. Q. I want to direct your attention to the middle of Page 1 of the document under election director comments, and the minutes state that: The procedure for the handling of absentee and mail-in ballot envelopes received as incomplete needs to be decided. Ms. Ostrander described the options available, and the Board will vote at the next meeting. How did that discussion end up on the agenda for the March 12, 2024 Board of Elections meeting?  A. I placed it on the agenda. Q. Okay, and why did you place that item on the agenda?  A. With each new election in light of court new court rulings and new guidance from the Department of State and

Q. For a mail-in or absentee ballot in 2024 that is undated, what did that look like on the envelope?  A. Can you repeat that?  MR. BERARDINELLI: Object to the form.  BY MS. McKENZIE:  Q. What does it mean for a ballot to be undated in April of 2024?  A. The area on the declaration envelope that says today's date would be blank.  Q. So it's missing a month and a day and a year?  A. Correct.  Q. Or any one of those items, a month	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	A. Undated is all three items missing. Q. Okay, what is an incorrectly dated mail-in ballot in April of 2023? A. You said '23. Q. I'm sorry, I need more caffeine. What is an incorrectly dated ballot in April of 2024? A. In 2024, an incorrect date would be a date outside of the date April 1st, 2024, which is the date the first ballots went out and election day which was April 23rd, 2024. Q. If a ballot was missing the month or the day on the declaration envelope, is that an undated ballot or an incorrectly dated ballot? A. We classified those in a third category called incomplete date, so the date was not complete. Q. Q. And how did the language not reflect the decision made by the county Board of Elections?  A. It had an indication that I can't recall. Otherwise well, I guess two sentences: Otherwise, you will not receive any further updates on the status of your ballot from this email address, and you are no longer permitted to vote at your polling place/location. So the language in those two sentences I do not agree with because they do not reflect the decision made by the Washington County Board of Elections.  Q. And what decision is that?  A. The decision is that the election office does not identify and prevent your ballot from being counted. That decision is a made when they are canvassed. So to voters in Washington County, the language

Commonwealth's duties as from the election code.  Q. So they have to be followed within the power of the Secretary of the Commonwealth?  A. Yes, to my knowledge.  Q. Is that different from your understanding of a guidance? Does a guidance have to be followed?  MS. McKENZIE: Objection.  A. My understanding of a guidance is that it is a recommendation but not the rule.  BY MS. GALLAGHER:  Q. Okay, so Document No. 2, it's not marked is it marked as a directive for a guidance?  A. On the front page, no, it is not.  Q. Okay, so I'd like you to look at	recording response types for absentee and/or mail-in ballots. These options may be used if a county offers ballot curing. So when you read that, when you were a curing county, did that then provide options to you that you could use if you wanted to?  MR. BERARDINELLI: Object to the form.  A. These options were not available in 2023 when the Board of Elections decided to cure.  BY MS. GALLAGHER:  Q. But if you were a curing county now   A. These are options that we may utilize. Q. You're not required to do that, correct?  A. No.

And then after the close of the polls sometime during the canvass process, understanding that can take several days, the canvass board looks at those ballots and evaluates them as well, correct?  A. Yes.  Q. And if someone is there as a member of the public, can they ask to see those ballots that have been set aside or segregated?  A. Yes.  Q. And would they be able to write down the names of all the voters whose ballots have been segregated?	184
